Signature | Date (DD/MM/YY)

Abortion by Telehealth

Your patient will complete their medical abortion via two telehealth consultations at home, rather than attending a clinic. Not all patients require an ultrasound; if needed we provide an ultrasound request during the first consultation. Medication is prescribed during the second consultation, which can be delivered or collected from a local pharmacy. Follow-up is included, but we may refer the patient back to you if GP support is needed for additional care.

Abortion by Telehealth eligibility criteria

☐ Has access to 24-hour emergency medical care within 2 hours drive

☐ Is less than 9 weeks' gestation

☐ Is at least 16 years old

☐ Speaks and understands English and can follow complex instructions

☐ Has access to the Internet and a telephone

Please fax any relevant imaging or pathology reports to **03 9658 7440**

Gestation >16 weeks

Patients with an estimated gestation >16 weeks require an obstetric ultrasound completed after 12 weeks gestation confirming placental location and relation to caesarean section scar if applicable. A FBC within the last month and blood group is also required.

Has your patient had an ultrasound to assess pregnancy?

☐ Yes → **Please fax utrasound report to 03 9658 7440**

☐ No, the ultrasound is booked, as per below ☐ No

Imaging service _____ Ultrasound date _____
DD/MM/YY

→ **Please indicate on the ultrasound request that a copy needs to be marked 'urgent' and faxed to 03 9658 7440**

Patient's blood group (if known) _____

Please fax any relevant imaging or pathology reports to **03 9658 7440**

MSI Choice Fund

The Choice Fund is for women and pregnant people in Australia who are experiencing financial hardship. We do not have the resources to respond to increasing demands for financial support throughout this pandemic. Please consider how you can donate or fund raise to support us to provide women and pregnant people safe access to contraception and abortion care.
